

Angel Up Front

"...Totty fronted rawk"

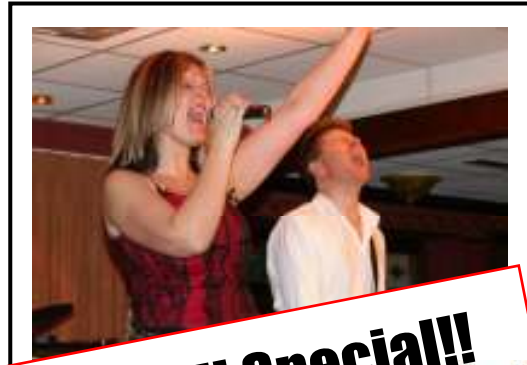

So, you came in here for a quiet drink, and there's some dodgy-looking bunch of misfits setting up a PA system. Stay put, and get another drink in. We play stuff from Pink to Floyd, from the Cult to the Killers, from G'n'R to Green Day, from when we start 'til closing time, and sometimes beyond...

The search for a new drummer was beginning to look hopeless...

Hi Folks!

Dorothy here, with this month's gig news from Angel Up Front. And when I'm not helping my folks out on the farm, there's nothing I like better than getting down to some badass shredding in front of my wall of Marshalls, whether it's laying down some killer rhythm shit or ripping out face-melting solos with my foot on the monitors.

This month, Wiltshire is set to take a savage aural pounding; we'll be kicking rock'n'roll ass all around Swindon, so you better be there or we'll be comin for ya....

Hugs and kisses Dorothy xxx
