NEW Product!! - Motorcyclist's Twin Airbag

Ever mindful of the need to enhance road safety, AUF Products plc is proud to present the new AUF Motorcyclist's Twin Airbag, as modelled by Suzi on the front cover of this flyer. This comfortable, discreet device is worn on the chest and automatically inflates in the event of a collision to protect the rider. Observant readers may have noticed prototypes of this device being worn under the t-shirts of a number of volunteer test riders from the Harley Owner's Club.

WARNING

This device is suitable for road use only. Proximity to RF transmission equipment (e.g. radio microphones) could lead to inadvertant operation of the device.
