

Angel Up Front

"...Totty fronted rawk"

So, you came in here for a quiet drink, and there's some dodgy-looking bunch of misfits setting up a PA system. Stay put, and get another drink in. We play stuff from Pink to Floyd, from the Cult to the Killers, from G'n'R to Green Day, from when we start 'til closing time, and sometimes beyond...

Hi folks! And welcome to this month's flyer. Some people call me Ken, but you can call me Wanda... This month, my good buddies at Angel Up Front are playing all over the place. Dates are approximate, as Martin can take up to three days to find the venue... I see there's a couple of bike rallies in there- love that leather gear! Also in the news - Suzi and Alan in child custody battle, apparently neither of them want a guitar-playing transvestite in the house. Get used to it, I say, Alan's missus has been putting up with it for years...

Till next time - Abyssinia! Wanda xxx
