

Angel Up Front

"...Totty fronted rawk"

So, you came in here for a quiet drink, and there's some dodgy-looking bunch of misfits setting up a PA system. Stay put, and get another drink in. We play stuff from Pink to Floyd, from the Cult to the Killers, from G'n'R to Green Day, from when we start 'til closing time, and sometimes beyond...

Howdy folks!

Daisy Duke here, welcoming you to this month's Angel Up Front flyer. As you can see, we got us a whole bunch of gigs again this month – I was so excited I darn near choked on my corn dog! I'm mighty sad to say our Martin has been feelin a bit down lately, since the Doc told him to lay off the moonshine - so to cheer him up, check out his very own very own Cowgirl Fantasy pic on the back page.

Y'all take care now!
